Fresh Graduate

Who I Am

Hello! I'm Andri Wahidin, a D3 Information Management graduate from Politeknik Negeri Lampung with a GPA of 3.65/4.00. I have a passion for modern web application development.

During my internship at CV Newus Technology, I worked as a Backend Developer on the E-Ticket Museum Lampung project — developing REST APIs using Express.js with PostgreSQL, and contributed to UI/UX design in Figma.

I'm BNSP certified as a Junior Web Programmer and hold an NDG Linux Essentials certificate from Cisco Networking Academy. Skilled in communication, teamwork, and problem-solving.

EDUCATION

D3 Information Management

Politeknik Negeri Lampung — GPA 3.65

LOCATION

Bandar Lampung, Indonesia

Open to remote opportunities

CERTIFIED

BNSP Junior Web Programmer

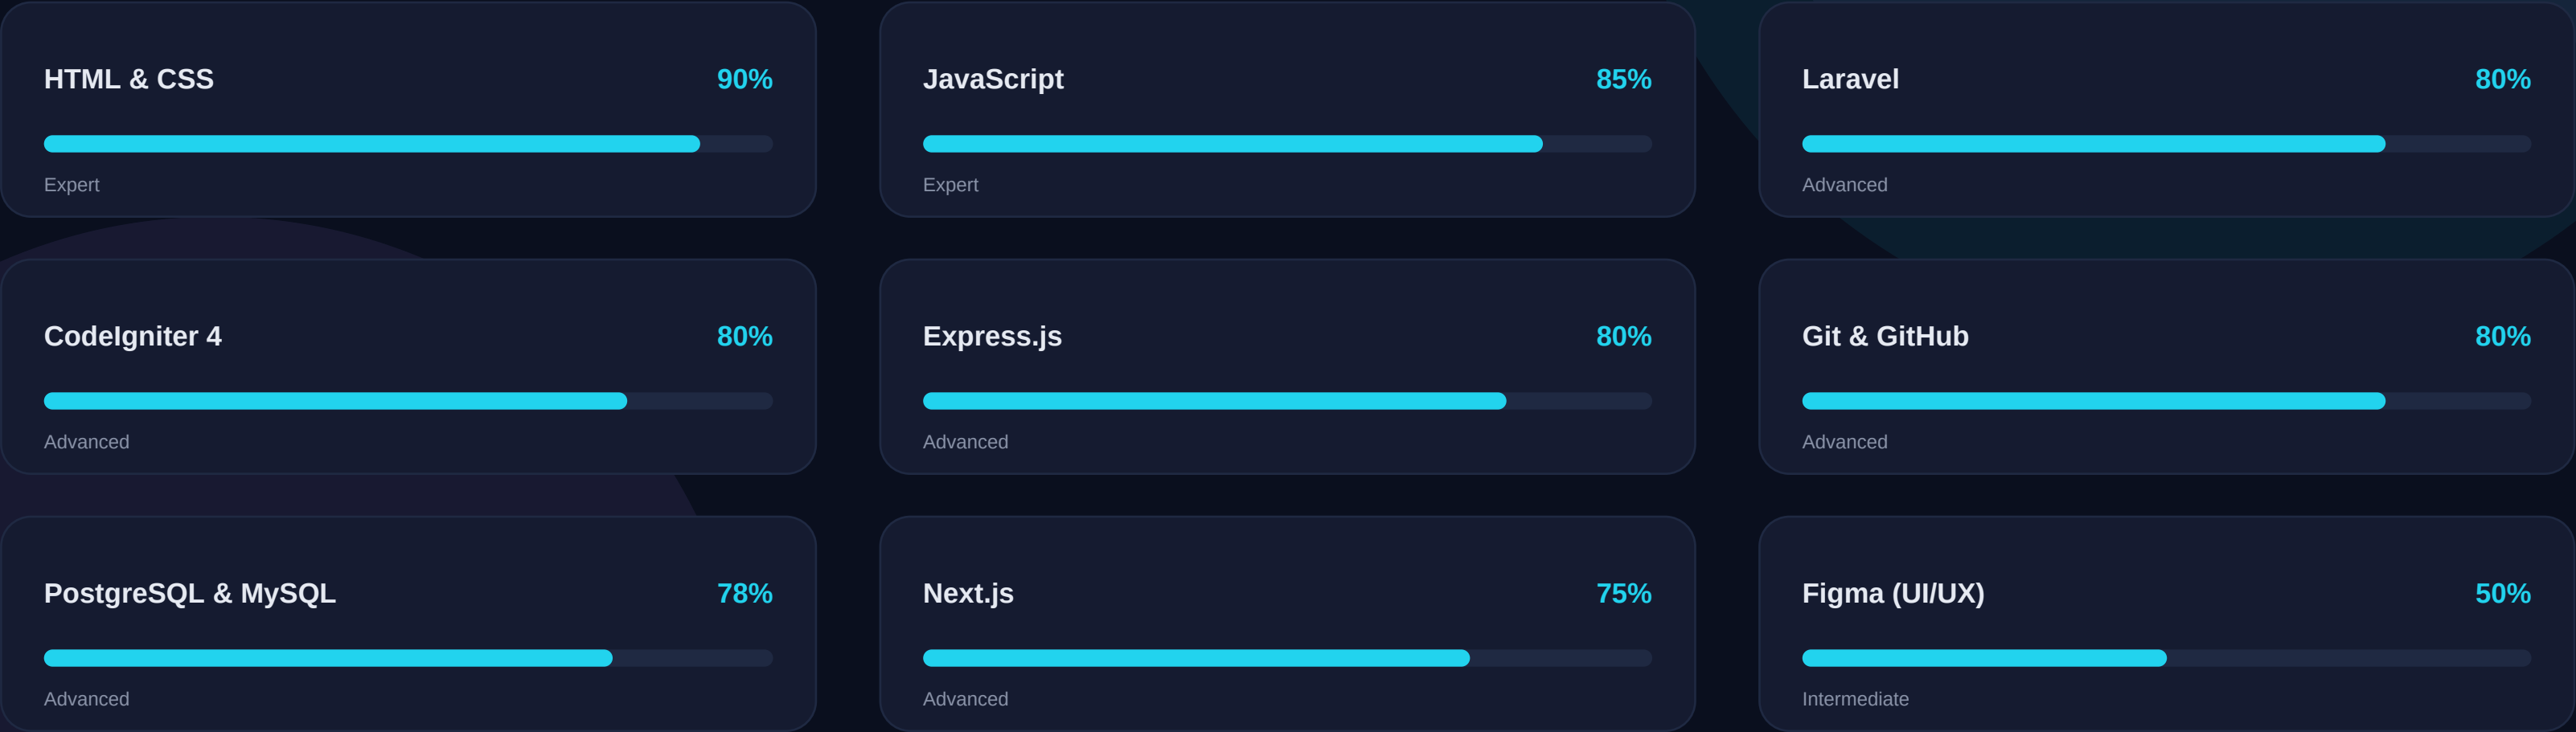

+ NDG Linux Essentials (Cisco)

FOCUS

Fullstack & Backend

Web apps, APIs, networking

Tools I use to build things.

ALSO WORKING WITH

- REST API
- JWT
- Bootstrap
- Socket.io
- Mikrotik
- Ubuntu Server
- Networking
- MongoDB
- Redux
- React.js
- Node.js
- PHP

Selected Projects.

01

Tourism & Ticketing

E-Ticket Museum Lampung

Next.js • Express.js • PostgreSQL

Mar–Jun 2025

02

Sports Management

Pencak Silat Championship

CodeIgniter 4 • MySQL • Bootstrap

2024

03

Campus Management

Student Aspiration Platform

Laravel • MySQL • SMTP

2025

04

Attendance System

QR-Based Attendance

React • Express • Socket.io

2025

05

E-Commerce

WebStore E-Commerce

CodeIgniter 4 • MySQL • jQuery

BNSP 2025

06

Business Management

Project Approval System

React • Express • MongoDB • JWT

2025

E-Ticket Museum Lampung.

E-TICKET

museum-lampung.id

Tourism & Ticketing

Internship Project

Role: Backend Developer & UI/UX Designer

CV Newus Technology • March – June 2025

Key Features

- Online ticket booking with multiple categories
- Visitor management & real-time statistics
- QR code tickets for fast on-site access
- Admin dashboard for tickets & visitors
- Secure JWT authentication & role-based access

Tech Stack

Next.js

Express.js

PostgreSQL

JWT

REST API

Figma

Process & Impact

- 1 Research**
Studied museum visitor flow & ticket pain points
- 2 Design**
Wireframes & UI in Figma, validated with team
- 3 API**
Express.js endpoints, PostgreSQL schema, JWT auth
- 4 Integration**
Connected Next.js frontend to API
- 5 Delivery**
Deployed & handed off to museum operations

Journey & Leadership

INTERNSHIP

Backend Developer Intern

CV Newus Technology • Lampung • Mar–Jun 2025

- Developed REST APIs using Express.js for E-Ticket Museum Lampung
- Designed database schema using PostgreSQL
- Collaborated on UI/UX design using Figma
- Implemented secure authentication & authorization

What I Offer

- **Web Development**
CodeIgniter 4, Next.js, Express.js
- **Backend Development**
REST APIs with PostgreSQL/MySQL
- **Responsive Design**
Mobile-first across all devices
- **IT Support & Network**
Mikrotik, Ubuntu Server admin
- **Database Management**
PostgreSQL & MySQL optimization
