

ANDRI WAHIDIN

Backend Developer | Backend Software Engineer | Software Engineer
andriwahidin987@gmail.com | linkedin.com/in/andriwahidin987
(+62) 823-7686-0995 | Bogor, West Java

PROFESSIONAL SUMMARY

Diploma graduate in **Informatics Management** from **Lampung State Polytechnic** with internship experience as a **Backend Developer** and **IT Support**. Skilled in **web application development**, **database design**, **system integration**, and **Linux server administration**. Developed the backend for the **Lampung Museum E Ticket Website** using **Node.js** and **Express.js**, built **10+ RESTful APIs** for authentication, ticket management, payment processing, reporting, and user management, and designed relational databases using **PostgreSQL** and **Prisma ORM**. Experienced in implementing **JWT Authentication**, **Role Based Access Control (RBAC)**, **Google OAuth**, **Midtrans Payment Gateway** integration, **API testing with Postman**, and deploying applications to **Linux VPS** using **PM2**. Recipient of the **Best Special Staff HMJ EKBIS Politeknik Negeri Lampung 2023** award, holder of the **BNSP Junior Web Programmer Certification**, and earner of five **Google Cloud Skills Badges** in **Cloud Computing**, **Cybersecurity**, **Artificial Intelligence**, and **Data Analytics**. Demonstrates strong **analytical thinking**, **collaborative teamwork**, and a commitment to developing **secure, scalable, and business oriented backend solutions** that support organizational **digital transformation**.

CORE COMPETENCIES

- Full Stack Web Development
- Database Design & Management
- Backend Development & RESTful APIs
- Authentication & Application Security
- Cloud Computing Fundamentals
- IT Infrastructure & Technical Support
- Software Engineering & System Deployment
- Artificial Intelligence Productivity & Developer Tools

EDUCATIONAL BACKGROUND

LAMPUNG STATE POLYTECHNIC

2022 - 2025

Associate Degree in Informatics Management (GPA: 3.65/4.00)

- **Final Project:** "Backend Development for the Lampung Museum E Ticket Website Using Express.js."
- **Summary:** Studied software development with a focus on **Backend Development**, **Web Programming**, **Database Management**, **RESTful APIs**, and **Software Engineering**. Actively participated in student organizations, committee activities, and a backend development internship while developing multiple web based applications to strengthen technical and professional competencies. Earned the **BNSP Junior Web Programmer Certification** and developed backend solutions using **Node.js**, **Express.js**, **PostgreSQL**, and **REST APIs** through the final project and internship program.
- **Award:** Best Special Staff, HMJ EKBIS, Lampung State Polytechnic (2023).

WORK EXPERIENCES

CV NEWUS TECHNOLOGY

March 2025 - June 2025

Backend Developer Intern

- Developed the backend for the **Lampung Museum E Ticket Website** using **Node.js** and **Express.js** during the internship program, delivering backend services that supported the web based ticketing system.
- Built **10+ RESTful APIs** for user authentication, ticket management, payment processing, reporting, and user management using **Express.js**, enabling efficient data communication between the frontend and backend.
- Designed, developed, and maintained a **relational database** using **PostgreSQL** and **Prisma ORM**, ensuring data integrity, consistency, and efficient application data management.
- Implemented **JWT Authentication**, **Role Based Access Control (RBAC)**, **Google OAuth**, and **Midtrans Payment Gateway** integration, strengthening application security and enabling secure online payment transactions.
- Performed **RESTful APIs testing and validation** using **Postman** and collaborated on backend integration with a **Next.js** application to ensure all features met system requirements.
- Deployed the backend to a **Linux Virtual Private Server (VPS)** using **PM2**, including production environment configuration, ensuring stable application deployment in the production environment.

Tools & Technologies: Node.js, Express.js, PostgreSQL, Prisma ORM, REST API, JWT Authentication, RBAC, Google OAuth, Midtrans Payment Gateway, Postman, Next.js, Linux, VPS, PM2.

Work Methods: Backend Development, RESTful APIs, Database Design, Authentication & Authorization, API Testing, System Integration, Version Control, Deployment, Production Configuration, Software Development.

Key Impact: Successfully developed the backend for the **Lampung Museum E Ticket Website**, implementing authentication, authorization, payment gateway integration, relational database architecture, and production deployment to deliver an end to end backend solution supporting the ticketing system.

LPK BINA DHARMA

February 2022 - May 2022

IT Support Intern

- Configured **MikroTik** network devices to support network connectivity and infrastructure operations.
- Installed and configured **Ubuntu Server** as a web server based on operational requirements.
- Installed computer hardware and performed initial system configuration to support end user needs.
- Troubleshoot hardware, network, and server issues using a root cause analysis approach, helping restore IT services efficiently.
- Assisted in preparing **network and server configuration documentation** to support infrastructure maintenance and operational reference.

Tools & Technologies: MikroTik, Ubuntu Server, Linux, Computer Hardware, Network Infrastructure.

Work Methods: Network Configuration, Server Installation, Hardware Installation, Technical Troubleshooting, Infrastructure Support, System Documentation, IT Support.

Key Impact: Contributed to network configuration, Linux server deployment, and technical issue resolution, supporting the reliability and day to day operation of the organization's IT infrastructure.

CERTIFICATIONS AND TRAINING

- **BNSP - Junior Web Programmer | 2025**
Modules: HTML, CSS, PHP, Database, CodeIgniter 4, Web Development.
- **NDG Linux Essentials - Cisco Networking Academy | 2025**
Modules: Linux Command Line, File System, User Management, Shell Scripting Fundamentals, Basic Linux Administration.
- **Course 1: Introduction to Security Principles in Cloud Computing - Google Cloud Cybersecurity Certificate | 2025**
Modules: Cloud Security Principles, Identity & Access Management (IAM), Security Fundamentals.
- **Course 2: Cloud Security Risk Management Strategies - Google Cloud Cybersecurity Certificate | 2025**
Modules: Risk Management, Cloud Infrastructure Security, Compliance.
- **Course 5: Prepare for a Career as a Cloud Security Analyst -Google Cloud Cybersecurity Certificate | 2025**
Modules: Security Monitoring, Incident Response, Cloud Security Analyst.
- **Using BigQuery Machine Learning for Inference, Google Cloud Skills Boost - Google Cloud Skills Badge | 2025**
Modules: BigQuery ML, SQL, Machine Learning Inference, Data Analytics.
- **Google Cloud Skills Badge - Gemini for Data Scientists and Analysts, Google Cloud Skills Boost, 2025**
Modules: Artificial Intelligence, Google Gemini, Prompt Engineering, Data Analytics.
- **Getting Started with Python Programming - Dicoding Academy, 2025**
Modules: Python Fundamentals, Data Types, Control Flow, Functions, Object Oriented Programming (OOP), Problem Solving.
- **Getting Started with Cloud Computing and Generative AI on AWS - Dicoding Academy, 2025**
Modules: Cloud Computing Fundamentals, AWS Services, Generative AI, AI Application Development.
- **Spec Driven Development with Kiro - Dicoding Academy, 2025**
Modules: Spec Driven Development, Software Documentation, Requirements Specification, Software Development Workflow.
- **Character Development Training - Department of Economics and Business, Lampung State Polytechnic, 2024**

ORGANIZATION EXPERIENCE

- **Vice Head of Media and Information Division, HMJ EKBIS LAMPUNG STATE POLYTECHNIC | 2022 - 2024**
Impact: Strengthened strategic leadership, organizational coordination, and digital publication management by supporting the successful execution of departmental and national level programs and events.

- **Vice Chairman**, PSHT POLINELA COMMISSARIAT | 2022 - 2023

Impact: Strengthened organizational leadership and team coordination by supporting member development initiatives and the successful organization of national level championships.

PORTFOLIO

- **Lampung Museum E Ticket Backend** - Backend Development & RESTful APIs Engineering. [Link](#)
- **Personal Portfolio Website** - Full Stack Web Development. [Link](#)

ADDITIONAL SKILLS

- **Software & Tools:** Node.js, Express.js, JavaScript, Next.js, HTML, CSS, Tailwind CSS, RESTful APIs, PostgreSQL, MySQL, Prisma ORM, Postman, Git, GitHub, Docker (Basic), PM2, Linux, Ubuntu Server, Google Cloud Platform (GCP), BigQuery, Google Gemini, Visual Studio Code, Figma, Draw.io, Microsoft Office.
- **Technical Skills:** Backend Development, Full Stack Web Development, RESTful APIs, Database Design & Management, Authentication & Authorization (JWT, RBAC, OAuth), Payment Gateway Integration, API Testing, Database Query Optimization, System Deployment, Server Administration, IT Support, Network Configuration, Cloud Computing Fundamentals, Data Analytics, Cybersecurity Fundamentals, AI Assisted Software Development.
- **Soft Skills :** Analytical Thinking, Problem Solving, Critical Thinking, Communication, Team Collaboration, Leadership, Time Management, Adaptability, Technical Documentation, Attention to Detail, Continuous Learning.
- **Language :** English (Intermediate)
