

ANDRI WAHIDIN

Backend Developer | Backend Software Engineer | Software Engineer

andriwahidin987@gmail.com | linkedin.com/in/andriwahidin987 | (+62) 823-7686-0995 | Bogor, West Java

PROFESSIONAL SUMMARY

D3 Informatics Management graduate from Politeknik Negeri Lampung with experience as a Backend Developer Intern and IT Support Intern, with competencies in web application development, database design, system integration, and Linux server administration. Developed the backend of the E-Ticket Museum Lampung website using Node.js and Express.js, building more than 10 RESTful APIs for authentication, ticket management, payment, reporting, and user management, as well as designing databases using PostgreSQL and Prisma ORM. Experienced in implementing JWT Authentication, Role-Based Access Control (RBAC), Google OAuth, and Midtrans Payment Gateway, performing API testing with Postman, and deploying applications to a Linux VPS using PM2. Awarded Best Special Staff HMJ EKBIS Politeknik Negeri Lampung 2023, holder of the BNSP Junior Web Programmer Certification, and completed 5 Google Cloud Skills Badges in Cloud Computing, Cybersecurity, Artificial Intelligence, and Data Analytics. Strong analytical skills, collaborative work ethic, and committed to building secure, scalable backend solutions aligned with business needs to support digital transformation.

CORE COMPETENCIES

- Full Stack Web Development
- Database Design & Management
- Backend Development & RESTful API
- Authentication & Application Security
- Cloud Computing Fundamentals
- IT Infrastructure & Technical Support
- Software Engineering & System Deployment
- Artificial Intelligence Productivity & Developer Tools

EDUCATION

POLITEKNIK NEGERI LAMPUNG — 2022 – 2025

D3 Informatics Management (GPA 3.65/4.00)

- **Final Project:** "Backend Development of E-Ticket Museum Lampung Website Using Express.js"
- **Summary:** Studied software development with a focus on Backend Development, Web Programming, Database Management, RESTful API Development, and Software Engineering. Actively involved in student organizations, committees, and industry internships as a Backend Developer, and developed various web-based application projects to strengthen technical and professional competencies. Earned BNSP Junior Web Programmer Certification and developed backend solutions using Node.js, Express.js, PostgreSQL, and REST API through the final project and internship program.
- **Award:** Best Special Staff, HMJ EKBIS Politeknik Negeri Lampung, 2023

WORK EXPERIENCE

CV NEWUS TECHNOLOGY — March 2025 – June 2025

Backend Developer Intern

- Developed the backend of the E-Ticket Museum Lampung website using Node.js and Express.js during the Industrial Internship Program, delivering backend services that support the operational needs of the web-based ticketing system.
- Built more than 10 RESTful API endpoints for user authentication, ticket management, payment, reporting, and user management using Express.js, enabling efficient data communication between frontend and backend.
- Designed, built, and managed relational databases using PostgreSQL and Prisma ORM, ensuring data integrity, consistency, and ease of application data management.
- Implemented JWT Authentication, Role-Based Access Control (RBAC), Google OAuth, and Midtrans Payment Gateway integration, improving user authentication security and enabling online payment transactions.

- Conducted REST API testing and validation using Postman and collaborated on backend integration with a Next.js application, ensuring all features work according to system requirements.
- Deployed the backend to a Linux Virtual Private Server (VPS) using PM2, including production environment configuration, so the application runs stably in the production environment.

Tools & Technologies: Node.js, Express.js, PostgreSQL, Prisma ORM, REST API, JWT Authentication, RBAC, Google OAuth, Midtrans Payment Gateway, Postman, Next.js, Linux, VPS, PM2.

Work Methods: Backend Development, REST API Development, Database Design, Authentication & Authorization, API Testing, System Integration, Version Control, Deployment, Production Configuration, Software Development.

Key Impact: Successfully developed the backend of the E-Ticket Museum Lampung website with authentication, authorization, payment gateway, relational database, and production deployment, supporting end-to-end system operations.

LPK BINA DHARMA — February 2022 – May 2025

IT Support Intern

- Configured network devices using MikroTik to support connectivity and network infrastructure operations.
- Installed and configured Ubuntu Server as a web server based on operational environment requirements.
- Installed computer hardware together with initial system configuration to support user needs.
- Troubleshoot hardware, network, and server issues using a root-cause identification approach, effectively restoring IT services.
- Assisted in preparing network and server configuration documentation as a reference for IT infrastructure operations and maintenance.

Tools & Technologies: MikroTik, Ubuntu Server, Linux, Computer Hardware, Network Infrastructure.

Work Methods: Network Configuration, Server Installation, Hardware Installation, Technical Troubleshooting, Infrastructure Support, System Documentation, IT Support.

Key Impact: Contributed to network configuration, Linux server installation, and resolution of various technical issues to support smooth IT infrastructure operations.

CERTIFICATIONS & TRAINING

- **BNSP – Junior Web Programmer** | 2025 — Modules: HTML, CSS, PHP, Database, CodeIgniter 4, Web Development.
- **NDG Linux Essentials – Cisco Networking Academy** | 2025 — Modules: Linux Command Line, File System, User Management, Shell Scripting Fundamentals, Basic Linux Administration.
- **Course 1: Introduction to Security Principles in Cloud Computing**, Google Cloud Skills Boost – Google Cloud Cybersecurity Certificate | 2025 — Modules: Cloud Security Principles, Identity & Access Management (IAM), Security Fundamentals.
- **Course 2: Cloud Security Risk Management Strategy**, Google Cloud Skills Boost – Google Cloud Cybersecurity Certificate | 2025 — Modules: Risk Management, Cloud Infrastructure Security, Compliance.
- **Course 5: Job-Ready for Cloud Security Analyst**, Google Cloud Skills Boost – Google Cloud Cybersecurity Certificate | 2025 — Modules: Security Monitoring, Incident Response, Cloud Security Analyst.
- **Using BigQuery Machine Learning for Inference**, Google Cloud Skills Boost – Google Cloud Skills Badge | 2025 — Modules: BigQuery ML, SQL, Machine Learning Inference, Data Analytics.
- **Google Cloud Skills Badge – Gemini for Data Scientists and Analysts**, Google Cloud Skills Boost, 2025 — Modules: Artificial Intelligence, Google Gemini, Prompt Engineering, Data Analytics.
- **Getting Started with Python Programming** – Dicoding Academy, 2025 — Modules: Python Fundamentals, Data Types, Control Flow, Functions, Object-Oriented Programming (OOP), Problem Solving.
- **Cloud Fundamentals and Generative AI on AWS** – Dicoding Academy, 2025 — Modules: Cloud Computing Fundamentals, AWS Services, Generative AI, AI Application Development.
- **Spec-Driven Development with Kiro** – Dicoding Academy, 2025 — Modules: Spec-Driven Development, Software Documentation, Requirements Specification, Software Development Workflow.
- **Character Strengthening Training** – Department of Economics and Business, Politeknik Negeri Lampung, 2024.

ORGANIZATIONAL & COMMITTEE EXPERIENCE

-
- **Vice Head of Media and Information Division**, HMJ EKBIS Politeknik Negeri Lampung | 2022 – 2024 — **Impact:** Strengthened strategic leadership and organizational coordination in managing digital publications and delivering successful faculty- to national-level programs and events.
 - **Vice Chairman**, PSHT Polinela Commissariat | 2022 – 2023 — **Impact:** Developed organizational leadership and team coordination capabilities to support member development and the effective delivery of national-level championships.

PORTFOLIO

- **Backend E-Ticket Museum Lampung** – Backend Development & REST API Engineering.
- **Personal Portfolio Website** – Full Stack Web Development. <https://andri-wahidin-portfolio.vercel.app/>

ADDITIONAL SKILLS

- **Software & Tools:** Node.js, Express.js, JavaScript, Next.js, HTML, CSS, Tailwind CSS, REST API, PostgreSQL, MySQL, Prisma ORM, Postman, Git, GitHub, Docker (Basic), PM2, Linux, Ubuntu Server, Google Cloud Platform (GCP), BigQuery, Google Gemini, Visual Studio Code, Figma, Draw.io, Microsoft Office.
- **Technical Skills:** Backend Development, Full Stack Web Development, RESTful API Development, Database Design & Management, Authentication & Authorization (JWT, RBAC, OAuth), Payment Gateway Integration, API Testing, Database Query Optimization, System Deployment, Server Administration, IT Support, Network Configuration, Cloud Computing Fundamentals, Data Analytics, Cybersecurity Fundamentals, AI-Assisted Software Development.
- **Soft Skills:** Analytical Thinking, Problem Solving, Critical Thinking, Communication, Team Collaboration, Leadership, Time Management, Adaptability, Technical Documentation, Attention to Detail, Continuous Learning.
- **Languages:** Indonesian (Native), English (Intermediate).
