Griya Alam Santosa Housing Complex, RT 11/RW 10, T8 No. 3, Pasir Angin Village, Cileungsi District, Bogor,

Indonesia | andriwahidin987@gmail.com | 082376860995

A graduate of the State Polytechnic of Lampung with a Diploma in Information Management, holding a GPA of 3.65. Experienced in web application development, technology-based work practice, and active involvement in various campus organizations. Possesses skills in programming, computer networking, and IT project management. Accustomed to working collaboratively, communicating effectively, and solving problems analytically. Committed to continuous learning and growth in the field of information technology.

WORK EXPERIENCE

CV Newus Technology – Bandar Lampung City, Lampung, Indonesia

March 2025 - Juni 2025

Field Work Practice (Internship)

During the internship at the Lampung Museum, served as a Backend Developer Intern in the team developing a web-based Lampung Museum Information System. Key responsibilities included: 1. Designing and implementing backend architecture using Node.js with the Express.js framework. 2. Developing and managing RESTful APIs as the connection between the frontend system and the database. 3. Using Prisma ORM for efficient and secure database management. 4. Implementing a JWT-based authentication system and data encryption using bcrypt. 5. Conducting API integration and testing for main features such as ticket management, user management, transactions, and attendance. 6. Collaborating with the frontend team and system documentation to ensure optimal integration. The internship lasted for 3 months (March–June 2025), resulting in a stable, secure, and ready-to-implement backend system for the Lampung Museum Information System.
