ABOUT ME

Get to know more about who I am and what I do

Hello! I'm **Andri Wahidin**, a fresh graduate of D3 Information Management from **Politeknik Negeri Lampung** with a GPA of **3.65 / 4.00**. I am passionate about building modern web applications across the full stack, from REST API design to polished UI/UX.

During my internship at **CV Newus Technology** I worked as a Backend Developer on the **E-Ticket Museum Lampung** project, building APIs with Express.js + PostgreSQL and contributing to the Figma UI/UX design. I also hold **BNSP Junior Web Programmer** certification and **NDG Linux Essentials** from Cisco Networking Academy.

I value clean architecture, clear communication, and shipping reliable features that solve real problems.

CORE SKILLS

TECHNOLOGIES

HTML · CSS · JavaScript · Next.js · React · Express.js · Node.js · Laravel · CodeIgniter 4 · PostgreSQL · MySQL · MongoDB · Figma · Git · REST API · JWT · Socket.io · Ubuntu Server · Mikrotik · Networking

MY PROJECTS

Selected work across web, e-commerce, and infrastructure

E-Ticket Museum Lampung

Tourism & Ticketing · Backend Developer & UI/UX Designer · Mar – Jun 2025

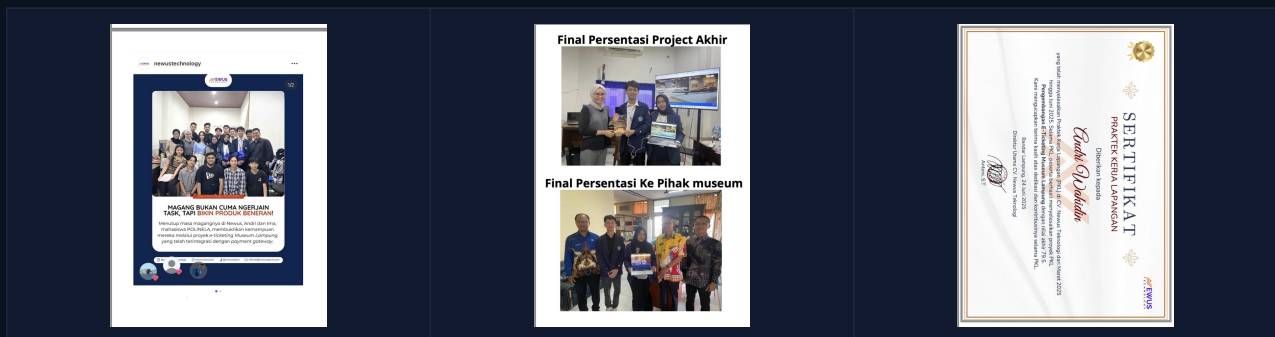

A digital ticketing system for Lampung Museum with online booking, visitor management, and statistical reporting.

Context: Final project for internship at CV Newus Technology

KEY FEATURES

- Online booking with category & pricing
- Real-time visitor stats
- QR-code tickets
- Admin dashboard

TECH STACK: Next.js · Express.js · PostgreSQL · Figma · JWT · REST API

Pencak Silat Championship System

Sports Management · Fullstack Developer · Academic Project 2024

Web information system for pencak silat tournaments with online registration, automated scheduling, and digital judging.

Context: University course project (PUM)

KEY FEATURES

- Online registration with documents
- Auto match scheduling
- Digital judging with live scoring
- Automatic certificate generation

TECH STACK: CodeIgniter 4 · PHP · MySQL · JavaScript · Bootstrap · AJAX

Student Aspiration Platform

Campus Management · Fullstack Developer · Personal Project 2025

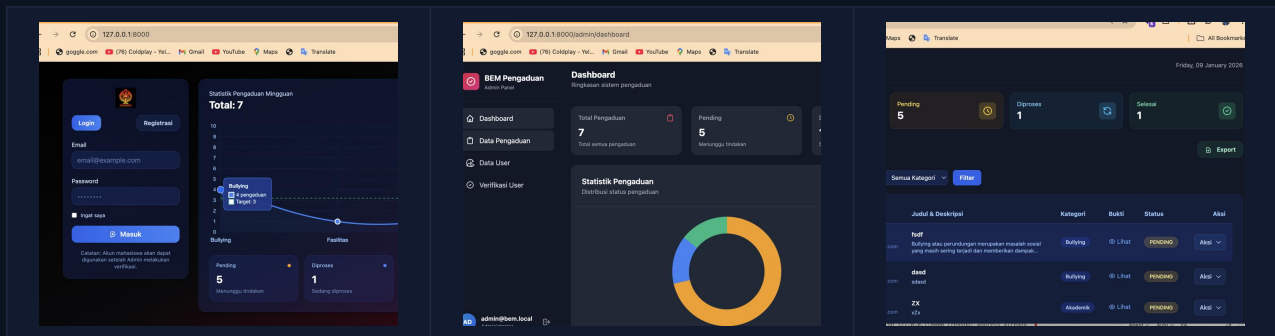

Complaint & suggestion platform with anonymous submissions, real-time tracking, and an admin dashboard.

Context: Helps students voice concerns to campus administration

KEY FEATURES

- Anonymous or public complaints
- Status tracking submitted → resolved
- Email notifications
- Admin analytics & reporting

TECH STACK: Laravel · PHP · MySQL · Bootstrap · AJAX · SMTP

QR-Based Attendance System

Attendance System · Fullstack Developer · Project 2025

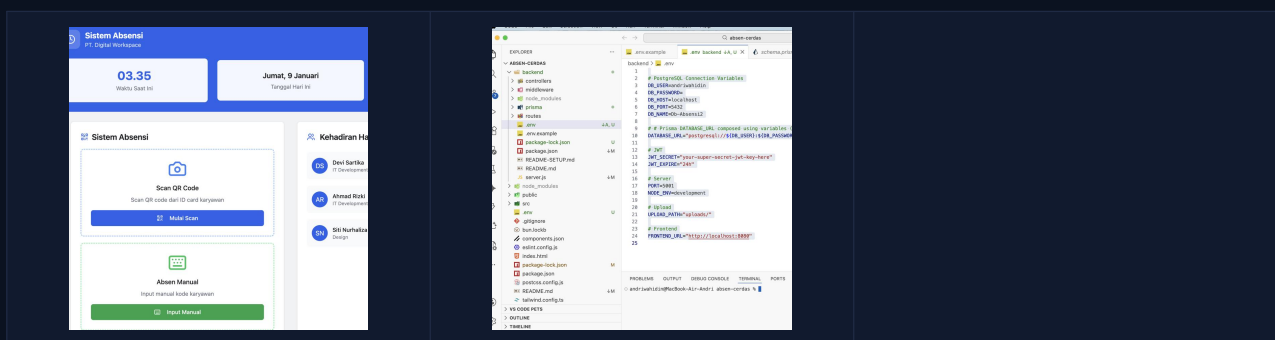

Attendance management using daily-unique QR codes, real-time tracking, and detailed reports.

Context: Digital attendance solution for educational institutions

KEY FEATURES

- Daily-rotating unique QR codes
- Real-time tracking via Socket.io
- PDF & Excel reports
- Multi-role: admin / teacher / student

TECH STACK: React.js · Express.js · Node.js · MySQL · QR Code · Socket.io

WebStore E-Commerce Platform

E-Commerce · Fullstack Developer · Certification Project 2025

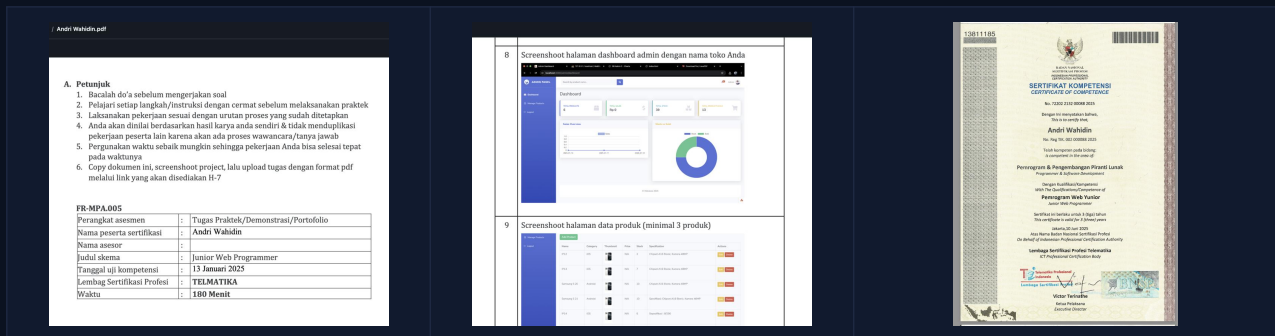

Full e-commerce platform with shopping cart, checkout, and product management.

Context: BNSP Junior Web Programmer certification project

KEY FEATURES

- Cart with auto calculation
- Multi-gateway checkout
- Admin CRUD for products/orders
- Product rating & reviews

TECH STACK: CodeIgniter 4 · PHP · MySQL · Bootstrap · jQuery · REST API

Project Approval System

Business Management · Fullstack Developer · Project 2025

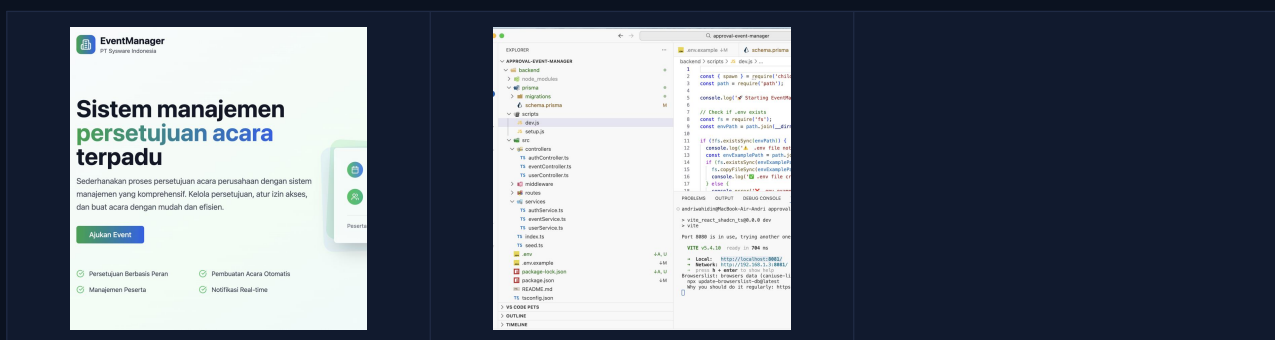

Project proposal & approval system with multi-level workflow and real-time notifications.

Context: Project management system for corporate environments

KEY FEATURES

- Multi-level approval workflow
- Real-time notifications
- Role-based access
- Audit log & history

TECH STACK: React.js · Express.js · Node.js · MongoDB · JWT · Redux

Network Configuration Project

Network Administration · Network Administrator · Internship 2022

Network infrastructure with Mikrotik routers and Ubuntu Server web hosting.

Context: Internship project at LPK Bina Dharma

KEY FEATURES

- Mikrotik router configuration
- Ubuntu Server web hosting
- DHCP & routing setup
- Network monitoring

TECH STACK: Mikrotik · Ubuntu Server · Linux · DHCP · Routing · Web Server

MY EXPERIENCE

Internships and organizational journey

INTERNSHIP

Backend Developer Intern

CV Newus Technology · Lampung · Mar – Jun 2025

- Developed REST APIs using Express.js for E-Ticket Museum Lampung
- Designed database schema using PostgreSQL
- Collaborated on UI/UX design using Figma
